

THE ULTIMATE FINESSE LONG CAST SYSTEM

NEW TATULA SV TW
FINESSE CASTING REELS

NEW TATULA ELITE SIGNATURE SERIES BASS RODS

Daiwa's popular Tatula series introduces new SV models for casting finesse baits far with ease. The SV spool feature reduces the weight of the spool and increases rotation improving casting control and distance for a wide range of lures. To complete the ultimate casting system match the New Tatula SV with a New Tatula Elite Series rod as the all-in-one casting system.

New Tatula Elite Series rods are specifically developed by our Daiwa Tournament Pros that have designed and defined the right rod for the job. Concentrate on catching fish, not hunting for the right rod or reel.

Check out all the Tatula series at your Daiwa dealer today.
